

**FRANCISCO J. RAMOS-GOMEZ, DDS., MS., MPH.**

Francisco J. Ramos-Gomez is currently a Full Professor in the Section of Pediatric Dentistry, at the University of California, Los Angeles; and Executive Director for the UCLA Center for Children's Oral Health. He is also Director of the Pediatric Community Health Advance Training (CHAT) Program. He has also served as the Director of Pediatric Services at the Family Dental Center at San Francisco General Hospital and has pioneered protocols in early detection, early intervention and prevention of Early Childhood Caries (ECC).

Dr. Ramos-Gomez was awarded the specialty and an M.S. degree in Pediatric Dentistry from Tufts University School of Dentistry in 1988; he earned his M.P.H. in 1990 from the Harvard University School of Public Health, Department of Policy & Management. In 1992, he was certified in Dental Epidemiology and Dental Public Health from the University of California, San Francisco.

He is a Diplomate of the American Board of Pediatric Dentistry and former member of the Executive Board of the American Association of Public Health Dentistry and the Board of the American Academy of Pediatrics AAP. Currently, Francisco Ramos-Gomez is a team member and Researcher on the NIDCR/UCSF- CAN-DO -Center to Reduce Oral Health Disparities in Children; Board member of the AAPD Government Council, Perinatal and Infant Oral Health Council; the Oral Health Action Coalition (OHAC); and, the California State Dental Health Alliance. He also served as the National HeadStart Oral health Consultant for Region 12 and he is a Past President of the Hispanic Dental Association.

He has been a pediatric dentist for more than thirty years with specific focus and research in the areas of early childhood caries (ECC) prevention, oral disease risk assessment, and community health with an emphasis on underserved populations. In addition to clinically based interventions, Dr.

Ramos-Gomez conceptualized and co-founded the Center to Address Disparities in Children's Oral Health to identify the cultural, environmental, workforce, behavioral, and biologic factors associated with health disparities among ethnic/racial groups in order to enhance health professionals' ability to target children likely to be at risk for dental caries. As a proponent of global health, Dr. Ramos-Gomez has supported the UC California-Mexico Health Initiative, established in 1999 to further the advancement of the UC bi-national health activities, and chaired the Oral Health Task Force, which fosters collaboration between UC and Mexican scientists in the areas of dental, pediatrics and oral health policy. Early in his career, Dr. Ramos-Gomez received the Kellogg Fellowship for International Development and testified at the U.S. Congressional Legislative Hearing on Hispanics. He has received numerous prestigious awards over the years such as the National Dental Association NDA Foundation/Colgate-Palmolive Faculty Recognition Award for Research, And the International Association of Pediatric Dentistry IAPD award for Best Global Innovation Preventive Program in Glasgow.

**KEYWORDS/AREAS OF INTEREST**

Childhood caries, Pediatric Dentistry, Latino/Hispanic health care, Perinatal and Infant oral health, Caries Management by Risk Assessment (CAMBRA), early detection/intervention of Early Childhood Caries (ECC), children’s oral health disparities, fluoride varnish, pediatric patients displaying oral manifestations of HIV/AIDS and Pediatric Oral Health clinical trials, Cultural competencies on the Latino Community, Diagnostic Dental codes, Quality Improvement, Oral Health Outcomes, Micro-incentives, and Oral Health Policy Development

**PROFESSIONAL ACTIVITIES**

**CLINICAL ACTIVITIES**

- 1992–2008 Pediatric Dentist, School of Dentistry Clinic, UCSF: Operating room; full-mouth rehabilitation under general anesthesia for 1 day every other week
- 1993–2004 Director, Pediatric Dental Services, UCSF Family Dental Center, San Francisco General Hospital: General pediatric dentistry 1 day per week
- 2004–2008 Pediatric Dentist, Native American Health Center: General pediatric dentistry 1 day per week. Faculty Practice
- 2008–2010 Graduate Program Director Venice UCLA Pediatric Residency Program
- 2010–now Pediatric Dentist, Venice Family Clinic Simms/Mann Health Center; Infant Oral Care Program with UCLA Pediatricians and WIC and Early Head Start
- 2011–now Pediatric Dentist - UCLA Faculty Practice
- 2015-now Pediatric Dentist, Venice Family Clinic Lou Colen Health Center; Infant Oral Care Program with UCLA Pediatricians and WIC and Early Head Start

## SUMMARY OF CLINICAL ACTIVITIES

At UCSF through 2008, I established a Community Partnerships adding Pediatric Dentistry component through an infant oral care clinic at the Native American Health Center in the Mission in SF as well as providing education and preventative services for infants and toddlers and comprehensive care for older children. This was in collaboration with SF WIC and Head Start programs. At UCLA beginning in 2010, I established a working collaboration and partnership with Venice Family Clinic Simms/Mann Health Center implementing an Infant Oral Care Program with WIC, UCLA Pediatrics, and Early Head Start initially funded by First 5 LA through the Center for Oral Health. In 2015, we expanded the Infant Oral Care Program to Venice Family Clinic Lou Colen Health Center.

## PROFESSIONAL ORGANIZATIONS

### SERVICE TO PROFESSIONAL PUBLICATIONS

1998-now Ad hoc referee for:  
*Journal of Clinical Pediatric Dentistry* (23 papers since 1998)

2009-2011	David Delgado	Clinical Research Mentor	UCLA – CHAT Program
2009-2011	Carrie Loewen	Clinical Research Mentor	UCLA – CHAT Program
2009-2011	Magnolia Becker	Clinical Research Mentor	UCLA – CHAT Program
2010-2012	Gerardo Martinez	Clinical Research Mentor	UCLA – CHAT Program
2010-2012	Deyanira Sanchez	Clinical Research Mentor	UCLA – CHAT Program
2010-2012	Francesca Artiga	Clinical Research Mentor	UCLA – CHAT Program
2011-2013	Michelle Dean	Clinical Research Mentor	UCLA – CHAT Program
2011-2014	Jack Yeung	Clinical Research Mentor	UCLA – CHAT Program
2013-2015	Richard Manwaring	Clinical Research Mentor	UCLA – CHAT Program
2014-2016	Danny Kalash	Clinical Research Mentor	UCLA – CHAT Program
2014-2016	Chelsea Zamudio	Clinical Research Mentor	UCLA – CHAT Program
2014-2016	Eunice Hwang	Clinical Research Mentor	UCLA – CHAT Program
2015-2017	Gabriela Salcedo	Clinical Research Mentor	UCLA – SPICE Program
2016-2018	Danielle Alarcon	Clinical Research Mentor	UCLA – SPICE Program
2016-2018	Catherine Pham	Clinical Research Mentor	UCLA – SPICE Program
2016-2018	Ryan Price	Clinical Research	UCLA – SPICE Program

2017-2019	Ogo Olele	Mentor Clinical Research	UCLA – SPICE Program
2017-2019	Jonathan Hurng	Mentor Clinical Research	UCLA – SPICE Program
2017-2019	Jennifer Villalta	Mentor Clinical Research	UCLA – SPICE Program

**INFORMAL TEACHING (approximately 300 hours per year)**

1991-1992	Center for AIDS Prevention Studies – Department of Epidemiology & Biostatistics, UCSF
1991-2008	Dental Public Health Seminars, UCSF School of Dentistry
1992-2005	Oral AIDS Center, UCSF – Seminar Meetings
1992-2005	Seminars for Senior Dental Students on rotation at the Family Dental Center at SFGH
1993-2008	Seminars for AEGD Students on Pediatric Dentistry – Buchanan Dental Clinic
1993-2008	Advising/mentoring of dental students in Pediatric Dentistry
1995-2008	Seminar for the UCSF School of Nursing on Pediatric Dentistry for the Dept. of Family Health Care Nursing – N406 Lecture series
1998-2004	Seminar for the UCSF Dental Hygiene Program – course DH 161
2004-now	First Smiles training program instructor
2006	Consultant in developing an Oral Health Curriculum for School of Nursing
2007	UCSF School of Medicine – Meeting the Challenges of Health Disparities
2009-now	UCLA School of Medicine – Latino Oral Health Disparities
2009-now	UCLA School of Medicine – Pediatrics
2014-now	UCLA School of Nursing – Center for Vulnerable Populations Research
2015-now	UCLA Semel Institute – Early Childhood Partial Hospitalization Program

**SUMMARY OF UCLA TEACHING HOURS**

2008-2011	910 total hours per annum Formal teaching hours: 650 Informal teaching hours: 150 Mentoring hours: 100
2011-2016	938 total hours per annum Formal teaching hours: 650 Informal teaching hours: 220 Mentoring hours: 50

Total anticipated hours: 900

**TEACHING NARRATIVE**

I continue to teach 1000 hours per year including formal, informal teaching, and mentoring pre- and post-doc students. This includes collaboration on research projects, manuscripts, and presentations.

	health iNnovation [BEECON])		
<b>2015-2017</b> (PI: Crall) University of California Los Angeles	First 5 LA 21st Century Community Dental Homes Project	First 5 Los Angeles	Funding Period: 2012-2016 Funding Amount Total: \$9 Million Effort: 7% FTE through June 30, 2016
<b>2016-2017</b> (PI: Ramos-Gomez)	Community Oral Health Workers Project (COHW-P)	Office of Statewide Health Planning and Development 15-8148	Funding Period: 2016-2017 Funding Amount: \$40,000

**Explanation and Role of Current Grants (above mentioned):**

Glass Ionomer and Fluoride Varnish (GIFVT Study)

Principal Investigator (PI)

Part of U54 Center Project 2 of CANDO (Weintraub – Center PI).

Director and Study Design, Creator of the Clinical trial and its administration

The purpose of this study is to test the effectiveness of a creative intervention approach for preventing and managing dental decay in preschoolers. Following the MAYA trial we are targeting 3-6 year old children for pro-active oral health preventative therapeutic services. This young children are randomly divided into two groups, with each group given different treatments to prevent dental decay from developing. The study takes place in southern California at the U.S. and Mexican border, a traditionally underserved area with widespread poverty.

Children’s Dental Care Program

Faculty on the Quality Improvement Learning Collaborative

The goal of this project is to improve and increase access to quality dental care for children ages 0 to 5. To work towards this goal the project aims at developing a sustainable community “dental home” model for children. In addition to collaborating with community partners to improve the infrastructure and operations of 22 community clinics across Los Angeles County and trains at residents and staff at Venice Family Clinics.

Strategic Partnership Interprofessional Collaboration and Education in Pediatric Dentistry (SPICE-PD)

Principal Investigator (PI)

Lead a Pediatric Dentistry specialty residency training curricula development with an emphasis on community health and advocacy training. The UCLA Section of Pediatric Dentistry develop a transforming curricula for its postdoctoral Pediatric dentistry training program with this grant, with a goal of preparing pediatric dentists with the new challenges and opportunities in the future. Specifically to more effectively meet the substantial and growing oral health needs of underserved children within the context of individual children, families and communities

Influence of Financial Incentives on Oral Disease Management in Young Children (BEhavioral EConomics for Oral health iNnovation [BEECON])

Principal Investigator (PI)

Explore the feasibility, acceptability, and appropriateness of different modalities of structuring micro-incentives (i.e. cash, noncash equivalent-value gift, or lottery payouts) targeted towards parents/caregivers for early childhood caries (ECC) prevention strategies of their children, using both qualitative (interview) and quantitative (survey) measures to determine incentive size, modality and frequency most likely to be effective.

Community Oral Health Workers Project (COHW-P)

Principal Investigator (PI)

The Community Oral Health Workers project will recruit a cohort of ten (bilingual preferred English /Spanish) parents/caregivers who will participate in an oral health course training and mentoring program provided by UCLA dental students/residents. The oral health training will utilize cutting-edge, evidence-based disease prevention, health promotion, and disease management tools to positively impact caregiver’s oral health knowledge and practice. The PI along with other staff will train these ten caregivers to become COHWs who then conduct oral health workshops to their peers at local Head Start and WIC programs (train-the-trainer model) in Los Angeles County. The hope is also that the project will inspire these caregivers/parents (and then trained COHWs) to pursue careers in public health, community health, dentistry or similar fields.

PAST GRANTS

(As Principal Investigator)

<b>Project Period</b>	<b>Title</b>	<b>Source</b>	<b>Funding</b>
1987	Dental Fund Grant Proposal, Roxbury Boys and Girls Dental Clinic	Tufts University School of Dentistry	\$5,000
1992	Oral Lesions in Pediatric HIV Infection Prevalence Study	UCSF Committee on Research	\$3,000
1992	Accidental Injuries Among Dental Health Care Workers	UCSF/Macy’s Grant, AIDS Clinical Research Center	\$11,000
1994-1997	Dental Considerations in Pediatric HIV Infection. J. S. Greenspan PI of OAC Center grant	NIDR/ Minority Supplement Grant - Oral AIDS Center	\$162,500
1997-2000	Risk Factors Associated with Early Childhood Caries	NIH/NIDR RO3 5R03DE012135-02	\$250,000
1998	Infant Oral Care Program	Colgate Research Branch Proposal	\$16,000
1999-2000	Center for Access to Care	UCSF Office of the President	\$15,000
2000-2001	Center for Access to Care	UCSF Office of the President	\$15,000

2001-2009 CANDO	The MAYA Project: Mother and Youth Access Program	NIDCR-U54DE14251	\$306,586
2007-2009	San Francisco Maternal and Child Oral Health "PRIME" Project	NIDCR-R21DE01850	\$165,000
2007-2010	"Dental Caries: Whole Genome Association and Gene x Environment Studies"	NIDCR 1U01-DE018903 Consultant	\$323,836
2007-2011 UCLA	Residency Training in General and Pediatric Dentistry	HRSA-07-102	\$300,000 (total first year)
2010-2015 UCLA	Community Health Advocacy Training in Pediatric Dentistry (CHAT-PD)	HRSA- D88HP20129	\$300,000 (total first year)
2013-2014	ECC and Obesity biomarker of disease progression	UCLA NIH CTSI	\$75,000

**(As Co-Principal Investigator)**

Project Period	Title	Source	Funding
1999-2005	Early Childhood Caries: Prevention and Treatment Outcomes	UCSF Comprehensive Oral Health Research NIDCR P60DE13058	\$370,000
2000-2006	Healthy Kids/Healthy Teeth	HCFA/CMS	\$320,000
2002-2005	SF Prop 10 Children and Families Commission	First Five, CA	\$300,000
2001-2006	Management of Dental Decay for Young Children Enrolled in the Medi-Cal - HK/HT	(HRSA) Co-Principal Investigator	\$ 80,000 annually
2006-2007	Oral Gene Expression and Dental Caries Development	NIDCR-U54DE14251 (Co-Investigator)	\$ 184,045 annually
2007-2011 (PI: Crall)	Pediatric Dentistry Leadership Education Center and Training Program	HRSA- Maternal and Child Health Bureau	\$250,000 (total first year DC)
2009-2012 (PI: John)	First5 Los Angeles	WIC Dental Collaborative Project	\$25,000

## **RESEARCH PROGRAM**

My career is dedicated to research which focuses on Children's Oral Health Disparities and Community- Based Participatory studies in children and their environment.

Specifically on the surveillance and epidemiology of "children at risk"—uninsured children and underserved children of low socio-economic status affected by dental disease.

Through my research creativity and innovation, I have been funded consecutively by NIH-NIDCR for the past 23 years.

My research worked with vulnerable communities, specifically HIV-infected and immuno-compromised children to assess and improve their oral health and work towards improving their overall health. In 1995, I was awarded the Education Foundation Best Research Award from the American Academy of Pediatric Dentistry for my work on pediatric HIV-infected children.

In 1996, I was awarded Distinguished Lecturer from the California Wellness Foundation at the UC Wellness lecture series for my work on "child abuse prevention". My research also focuses on the prevention of Early Childhood Caries the consequences of these young children affected by this painful epidemic, also children suffering from abuse. I have developed a research agenda in oral health public policy issues for children lacking adequate access to oral health care services and issues pertaining Hispanic Oral Health.

In 2000, we were awarded (through Dr. Jane Weintraub as PI) an NIDCR, seven-year funded program as a collaborative effort with UCSF to establish a Center for Children's Oral Health Disparities (CANDO) at: [www.ucsf.edu/cando/](http://www.ucsf.edu/cando/).

In addition, I was the Principal Investigator of one of the projects for CANDO an NIDCR/UCSF clinical trial held at San Ysidro Community Health Center following on a Management Model for the Prevention of Early Childhood Caries, where we targeted 555 pregnant, predominantly Hispanic women and followed them until their babies were three years of age, with different intervention modalities. The continuation is the GIFVT study where we are recruiting 636 preschool children from 3 to 5 years of age with the preventive use of a therapeutic glass ionomer and fluoride varnish as part of their individual disease prevention management model.

I am currently one of the lead PIs in the NIH-NIDCR Disparities Collaborative as the designer and creator of the BEECON project, Influence of Financial Incentives on Oral Disease Management in Young Children (BEhavioral EConomics for Oral health iNnovation -BEECON)

Ultimately, my work is intended to lead to the introduction of prevention strategies with effective interventions and early treatment, with the purpose of improving the quality of life for these young patients and improve the education of the relevance of oral health to their parents. This will enable us to establish policy recommendations in the future for improving children's oral health.

In 2007, I was awarded the UCSF campus Chancellor's Public Service Award and in 2015, I was awarded the First prize for the IAPD Bright Smiles and Bright futures award of excellence as the most innovative and creative projects of Early childhood Caries prevention globally.

### **The 6 most significant papers:**

1. Flores, G., Fuentes-Afflick, E., Barbot, O., Carter-Pokras, O., Claudio, L., Lara, M., McLaurin, J.A., Pachter, L., **Ramos-Gomez, F. J.**, Mendoza, F., Valdez, R. B., Villarruel, A. M., Zambrana, R. E., Greenberg, R., & Weitzman, M. (2002). The health of Latino children: Urgent priorities, unanswered questions, and a research agenda. *The Journal of the American Medical Association*, 288(1): 82-90.

The only pediatric Dentist on this group formed by the American Academy of Pediatrics on Policy recommendations on the Health of Latino Children where my role was to represent Dental issues of underserved children and discuss the integration of Oral Health into the model of Primary care.

2. **Ramos-Gomez F. J.\***, Flaitz, C., Catapano, P., Murray, P., Milnes, A. R., & Dorenbaum, A. (1999). Classification, diagnostic criteria, and treatment recommendations for orofacial manifestations in HIV-infected pediatric patients; collaborative workgroup on oral manifestations of pediatric HIV infection. *Journal of Clinical Pediatric Dentistry*, 23(2): 85-96. First ever classification criteria for diagnosis and treatment recommendations for HIV infected children based on my original idea, and also in coordinating and executing to form a consensus of experts to come up with treatment and policy recommendations.

2. Weintraub, J. A., **Ramos-Gomez, F.**, Jue, B., Shain, S., Hoover, C. I., Featherstone, J. D., & Gansky, S. A. (2006). Fluoride varnish efficacy to prevent early childhood caries. *Journal of Dental Research*, 85(2); 172-176.

Part of a comprehensive team based on my participation as Project Director. In charge of coordinating and executing this first prospective clinical randomized trial in SF and in the USA. Also assist in the design, study results and policy recommendations. Based on this study the State of California Medicaid office is reimbursing Dental and Medical Providers for fluoride varnish three times a year.

4. **Ramos-Gomez, F.\***, Cruz, G. D., Watson, M. R., Canto, M. T., & Boneta, A. E. (2005). Latino oral health - a research agenda toward eliminating oral health disparities. *Journal of the American Dental Association*, 136(9):1231-1240.

First ever Latino Oral Health Research agenda, based on my original idea, and also in coordinating and executing to form a consensus of experts to come up with projections and policy recommendations.

5. **Ramos-Gomez, F. J.**, & Ng, M. W. (2011). Into the future: Keeping healthy teeth caries free: Pediatric CAMBRA protocols. *Journal of the California Dental Association*, 39(10): 723-733. Part of a comprehensive team based on the designing, implementation in coordinating and executing the protocols and evidence-based data on prospective experimental design on CAMBRA targeted to 0-5 year olds and policy recommendations.

6. **Ramos-Gomez, F. J.**, Silva, D. R., Law, C. S., Pizzitola, R. L., John, B., Crall, J. J. (2014). Creating a new generation of pediatric dentists: A paradigm shift in training. *Journal of Dental Education*, 78(12): 1593-1603.

Leading the team we implemented a Health Resources and Services Administration-funded program to prepare dentists for the complex and comprehensive needs of pediatric patients within rapidly changing demographics and a paradigm shift in dentistry. Traditional dental education has focused on how to respond to oral disease, whereas UCLA's program shifts the paradigm to emphasize early assessment, risk-based prevention, and disease management.
